Absence

Aspect - Difficulty

Absence

Absence is structured missingness shaping the boundaries of y . What is absent may be as active in defining behavior and inside structure as what is present.

absence, exclusion, omission, gap, indecision, inversion, backward, outside, disappearance, emptiness

1. Choose a keyword x on this card.
2. Choose a target y , attach this card if possible.
 y may be any card, domain, object, or topic.
3. Interpret $x(y)$: Think of aspect x of target y .
If y is attached to target z , interpret $x(y(z))$.

Aspect cards modify what aspect of a target y is investigated.

A cavity was found where the anchor should have been. The wall had been holding by habit. We learned that too late.
