Aspect - Passage

Input

Input is what enters y from upstream as nothing begins from nowhere. It turns thought toward what y depends on, whether visible, assumed, or forgotten.

input, domain, source, start, initial conditions, premises, knowledge, assumptions, upstream causes

1. Choose a keyword x on this card.
2. Choose a target y , attach this card if possible.
 y may be any card, domain, object, or topic.
3. Interpret $x(y)$: Think of aspect x of target y .
If y is attached to target z , interpret $x(y(z))$.

Aspect cards modify what aspect of a target y is investigated.

Source damaged. Alternative states not recoverable from this side.
