Aspect - Passage

Output

Output is what y leaves behind, becoming consequential beyond itself. It directs attention toward effects, residues, conclusions, and dependencies of what follows.

output, codomain, results, effects, residue, endings, conclusions, summaries, downstream consequences

1. Choose a keyword x on this card.
2. Choose a target y , attach this card if possible.
 y may be any card, domain, object, or topic.
3. Interpret $x(y)$: Think of aspect x of target y .
If y is attached to target z , interpret $x(y(z))$.

Aspect cards modify what aspect of a target y is investigated.

Terminal state exported. Rejected repeatedly and vehemently.
