Stance

Aspect - Agency

Stance

Stance is the orientation an agent takes towards y . It shapes what later appears natural and clarifies how interpretation is tilted by intention and prejudice.

stance, posture, attitude, expectations, prejudice, personality, alignment, support, commitment, judgement, dislike

1. Choose a keyword x on this card.
2. Choose a target y , attach this card if possible.
 y may be any card, domain, object, or topic.
3. Interpret $x(y)$: Think of aspect x of target y .
If y is attached to target z , interpret $x(y(z))$.

Aspect cards modify what aspect of a target y is investigated.

I inspected the structure for order and found it in excess.
