Dynamics

Asks what happens and how presences change. How something appears, spreads, crosses a threshold, disappears, or continues under the weight of what came before. Transformation rather than inventory.

emergence, propagation, transition, dissolution, memory, history, dynamics, transformation, persistence

Change, transmission, thresholds, and legacy as part of the phenomenon.

Forced narratives of change with unclear relevance.

Interpret the target card as part of an ongoing process.

"What is happening here in time and space?"

The time of Marchantia came and went. The forest still owes its patterns to it.
