

Exterior Void

World → Model absence

Exterior Void

Void - Exterior Void

World → Model absence

Exterior Void is the absence of contact between model and world. It describes everything exterior from Source and Volition that never enters the model at all: data, truth, will, reasoning.

absence of observation/ data/ supervision/ reality/ intent/ thought/ control/ purpose, detachment

- ▲ Model connected to exterior world in a meaningful and controlled way.
- ▼ Model untethered from reality and purpose in important parts.
- ▶ Remove from target card any traces of reality or will.

"Where does my model end without touching anything meaningful?"

This whole landscape is a shell. It holds neither purpose nor semblance to anything meaningful.
