Model-Reality Mismatch

The illusion of correspondence that arises when the model is mistaken for reality, and vice versa. What stands between them is imagination and your mental model of the model.

interpretive fantasy, model understanding, model of a model, representational illusion, category error

Encourages model understanding.

Confuses mental representation with truth.

Ask whether the target card describes the world, the model, or a fantasy of both.

"In my understanding of the model, where do metaphors replace mathematics?"

*Down below: The world. Above: A model of the world.
Hidden in the mind: A model of the model.*
