Volition - Subliminal

Defensive perception

The refusal to acknowledge threats as a subliminal defense of identity. Filtering perception to preserve competence and self-trust by rejecting evidence that endangers the modelers self-image.

avoidance of threats/ contrary evidence, preservation of ego / belief, motivated reasoning, confirmation bias

- ▲ Maintains confidence, coherent decisiveness, and continuity of self.
- ▼ Rejects disconfirming evidence; turns inquiry into self-defense.
- ▶ Treat the target card as personally threatening, observe what evidence you dismiss.

"What conclusion would unsettle me enough that I instinctively look away?"

The city was built on a sunlit hill spared by the rainy season. Its citizens praised the perfect climate, stopped repairing roofs. When the first storm arrived, it was not recognized as weather, but as betrayal.
